BUSINESS REVIEW

(1) Sales Activities

5°g,4 € E.

Turnover and earnings from sales at subsidiary level for the interim period ended 31st December, 2007 were mainly derived from sales of residential units in new projects One New York in Hong Kong and Greenfields in Guangzhou, PRC, the occupation permits of which were obtained during the interim period; as well as sales of residential units already completed in Vision City, One SilverSea and the detached houses of St. Andrews Place.

Located in the west of the Kowloon area, One New York offers residents a chic metropolitan lifestyle. This development is a short walk from the MTR Cheung Sha Wan Station. Launched in November 2007, the project has been well received with over 71% of its 132 units sold.

Greenfields is a residential project located in Guangzhou, PRC. The project offers a total of 238 residential units and market response to the sales has been good with 99% of its total units sold.

As for the projects already completed, over 96%, 99% and 80% respectively of the total number of residential units/detached houses in Vision City, One SilverSea and St. Andrews Place have been sold.

Earnings from property sales at associate level were mainly derived from sales of completed residential units in Mount Beacon located in Kowloon Tong, One HoneyLake in Shenzhen and Chengdu International Community in Chengdu, Sichuan. All of the remaining luxurious residential houses/apartments in Mount Beacon have been sold. Approximately 99% of all the units in One HoneyLake have been sold and over 78% of the units launched to date in the Chengdu International Community have been sold.

During the interim period ended 31st December, 2007, the Group completed two new residential projects, final phase of the One HoneyLake in Shenzhen and one phase of the Chengdu International Community in Chengdu. Details of the projects are presented in the table below with a total attributable gross floor area of approximately 0.8 million square feet:

As at 31st December, 2007, the Group has a land bank of approximately 44.9 million square feet of attributable gross floor area comprising a balanced portfolio of properties of which 65% is residential; 25% commercial; 5% industrial; 3% car parks and 2% hotels. In terms of breakdown of the land bank by status; 34.2 million square feet consist of properties under development, 9.8 million square feet of properties for investment/own use and 0.9 million square feet of properties held for sale. The Group will continue to selectively replenish its land bank, both in Hong Kong and in Mainland China, to optimise its earnings potential.

(4) Rental Activities of the same of the s

The Group's rental portfolio performed solidly for the interim period ended 31st December, 2007 due to rental increases from lease renewals, new leases in the existing rental portfolio and high occupancy in all sectors of the portfolio. The gross rental revenue, including the attributable share of its associates, increased by 13.97% to HK\$891.4 million) compared with HK\$782.1 million in the corresponding period last year.

In December, 2007, the Group acquired 60% and 57.5% equity interests from the joint venture partners in the development companies of Olympian City 1; and 2 respectively. Subsequent to the interim period, the Group acquired the remaining 10% interest in the development company of Olympian City 1. Prior to the acquisitions, the Group had 30% and 42.5% interests in the respective development companies of Olympian City 1 and 2, and now the Group owns 100% equity interests in both development companies. The acquisitions enable the Group to increase its rental portfolio by approximately 391,000 square feet of retail space, providing further rental growth in the recurrent income of the Group.

The award-winning and environmentally-friendly shopping mall Citywalk, with approximately 300,000 square feet of retail space, was opened in January 2008. The development is a joint venture with Urban Renewal Authority and is located in the heart of Tsuen Wan, within walking distance to both MTR Tsuen Wan Station and the Tsuen Wan West Station on the West Rail.

Citywalk introduces elegant retail and alfresco dining which offers an attractive shopping experience. The project has recently been rated Platinum by the Hong Kong Building Environmental Assessment Method Society (HK-BEAM Society) for its eleven distinctive green features and designs including the Vertical Garden, Citywalk Piazza, the hybrid water and air-cooled air-conditioning system and more. With a 40,000 square feet Citywalk Piazza, a unique 8,000 square feet Vertical Garden, an optimal tenant mix, good floor layouts, ample car park facilities and high accessibility via public transportation networks, Citywalk will be a landmark and shopping attraction. Rental contributions from retail properties of the Group display strong potential for continuing growth. Solid, growth in retail sales is mainly driven by domestic consumption, further rises in household incomes, an increasing number of households and births as well as growing visitor arrivals. A series of asset enhancement programmes are in place with specific focus on design upgrades and facility improvements based on customer needs, market research and the optimisation of tenant mixes. The programme is expected to further increase the yields and capital values of the Group's retail properties on a continuing basis.

The office sector continued to experience strong demand due to business expansion and the many destablishing of offices by companies new; to Hong; Kong. In addition, the Group has undertaken a redevelopment project to convert the Po Hing Centre industrial building in Kowloon Bay into a Grade-A office building thereby; enlarging its office portfolio by approximately 1,74,000 square feet of attributable gross floor area. The Group will continue to review its existing rental portfolio and carry; out redevelopment or conversions when commercially viable.

The growth in trade activities in Hong, Kong continued to boost the demand for industrial space. Both the rental rates and capital values of the industrial buildings of the Group contributed robust growth during the period under review. The overall occupancy rate of the Group's industrial buildings was high.

With the additional gross floor areas of the Olympian City 1 and 2 and Citywalk shopping malls, the Group has approximately 9.8 million square feet of attributable gross floor area of properties for investment/own use as at 31st December, 2007. Of this portfolio, commercial developments (retail and office) account for 60%, industrial developments 17%, car parks 14%, hotels 6%, and residential 3%. The Group expects to complete a total of approximately 5.4 million square feet of attributable gross floor area of investment properties in the next few years which will further increase its recurrent income base.

The tourism industry in Hong Kong recorded good growth in 2007 with the total number of visitor arrivals in Hong Kong for 2007 surpassing 28 million, representing an increase of over 10% compared with that of 2006. Total expenditure associated with the inbound tourism was over HK\$130 billion, approximately 10% above the HK\$119 billion recorded in 2006. Economic activity remained strong, together with the HK\$AR Government's efforts to promote Hong Kong as a MICE (Meeting, Incentive, Convention, Exhibition) destination, business travels continued to grow favourably in 2007. In January 2008, Hong Kong Tourism Board announced that Hong Kong won the Best MICE City Award by CEI Asia Pacific Magazine as the conference support and quality of services of Hong Kong have gained overseas recognition.

During the interim period under review, Conrad Hong Kong continued to achieve positive growth in occupancy rate, room sales and average room rate compared with the previous interim period. Following the completion of its guest room renovation programme, Conrad

Hong Kong renovated its Nicholini's restaurant and Pacific Bar, which were completed in October 2007. A continuing asset enhancement renovation programme is in place aiming to offer customers enjoyable and comfortable stays with the hotel.

In recognition of the quality of service of Conrad Hong Kong, it has received the 'World's Best Hotels' Award by Institutional Investor' (2007), 'China's Top Hotels 2007' Award by Travel & Leisure China following the receipt of 'Top 100 The Best in the World Readers' Choice Awards' by Condé Nast Traveller earlier. The three restaurants operated by the hotel namely Nicholini's, Brasserie on the Eighth and Golden Eeaf'have received the 'Hong Kong's Best Restaurants 2007' Award by Hong Kong Tatler (2007).

The tourism sector in Singapore set a new high of 10.3 million visitor arrivals in 2007, representing an increase of 5.4% over 2006 and generating approximately \$\$13.8 billion in tourism receipts. The increase in visitor arrivals, continuing growth in economic activities and robust performance of the MICE sector in Singapore have benefited The Fullerton Singapore. Average room rate, room sales, and food and beverage business recorded good growth during the interim period ended 31st December, 2007.

To enhance high quality of products and services to meet the expectation of discerning guests, the Group continues to roll out renovation programmes to upgrade the amenities and facilities of The Fullerton. The conversion of Financial Centre meeting rooms into retail lobby shops started in January 2008 and is expected to be completed in the second quarter of 2008. The hotel's successful Post Bar opened a sister outlet in Singapore's new Changi Airport Terminal 3 on 9th January, 2008. The Fullerton's premier location will also enjoy superior visibility during Singapore's inaugural Formula of race; scheduled for 28th September, 2008.

The Fullerton received several awards from respected organizations and magazines in recognition of its standards of service during the interim period. It was rated one of the world's top hotels in the 12th Annual Travel + Leisure World's Best Awards, 'Reader's Choice Awards' by Condé Nast Traveller (2007), 'World's Best Hotels' Award' by Institutional Investor (2007) and 'Best Business Hotels' and 'Best Conference Hotels' in Best in Travel Poll by SmartTravelAsia.com (2007).

Capitalising on the heritage buildings and the prime location of the promenade along the waterfront vantage in front of The Fullerton, the Group has embarked on a comprehensive business plan to transform the entire area into a major destination for dining, entertainment and hospitality. The project will conserve the distinctive architecture and heritage of the area. Combining The Fullerton, One, Fullerton, The Fullerton Waterboat House as well as the Collyer Quay project (acquired in 2006), will be integrated into a commercial complex comprising a new luxurious boutique hotel with approximately 100 guest rooms, Clifford Pier and Customs, House - the waterfront area will be revamped and named as The Fullerton Heritage, offering a unique and memorable lifestyle experience for locals and tourists alike.

(6) Mainland Business

In July, 2007, the Group successfully acquired two sizeable plots of land in China at good prices for the development of residential and commercial properties. The projects will provide a total of approximately 18.6 million square feet of attributable gross floor area upon completion over the next few years. With the new acquisitions, the Group's development land bank in Mainland China is now approximately 28 million square feet of attributable gross floor area.

In the medium to long term, China's continuing development and economic growth offers tremendous business opportunities for entrepreneurs and good employment prospects, which are positive to the property market. The Group will, thus, continue to search for good sites in cities with sound economic fundamentals. The Group's commitment to building quality properties and providing after-sales professional property management services has been a key factor in customer satisfaction and we are committed to do the same.

Other than the matters mentioned above, there has been no material change from the information multiplied in the report and accounts for the financial year ended 30th June, 2007.

As at 31st December, 2007, the Group's gearing was 22.3%, expressed as a percentage of bank and other borrowings net of cash and bank balances over shareholders' equity. The decrease in gearing compared with that as at 30th June, 2007 was mainly due to the receipt of the sales proceeds from the sale of residential units in Vision City, One SilverSea and sale of houses from St. Andrews Place, as well as a share placement of 220 million new ordinary shares at HK\$19.57 per share on 24th September, 2007. Of the total borrowings, 24.7% was repayable within one year, 27.5% repayable between one and two years and 47.8% repayable between two and five years. The Group's borrowings are subject to floating interest rates. The Group, including the attributable share of its associates, had cash resources of approximately HK\$13,606 million, comprising cash on hand of approximately HK\$3,978 million together with committed undrawn facilities of approximately HK\$9,628 million. All the cash on hand is in the form of deposits in banks of high credit ratings. Total assets and shareholders' funds of the Group were HK\$83.0 billion and HK\$56.4 billion respectively.

As to the litigation between Sino Land Company Limited ("Sino Land") and Hang Lung Group Limited ("Hang Lung") in respect of the acquisition of a company which owns a property in Yau Kom Tau in Tsuen Wan for development into a hotel, the Court of Final Appeal on 5th February, 2007 allowed the appeal by Sino Land. Pursuant to the judgment, Hang Lung repaid to Sino Land the deposit of HK\$321 million on 6th February, 2007 and it also paid the interest of HK\$178 million on 16th January, 2008, leaving Sino Land's claims for legal costs and damages to be agreed between the parties or failing which, to be assessed by the courts.

There was no material change in foreign currency borrowings and the capital structure of the Group for the interim period ended 31st December, 2007. Foreign exchange exposure has been prudently kept at a minimal level.

PROSPECTS

During the interim period, financial markets have been challenging mainly as a result of declining credit quality in mortgages and sub-prime mortgages in the United States. However, the speedy introduction of stimulus measures to address the slowdown and to revive the economy is expected to have a positive effect later this year. While the Asian equity markets have been affected, the healthy economic growth and the emergence of positive wealth in Asia are expected to mitigate any slowdown in the United States.

The state of the second of the

Hong Kong recorded robust growth in 2007 with domestic demand, high value-added sectors and vibrant trade flows between Hong Kong and Mainland China being the key drivers of the economic expansion. The fundamentals of Hong Kong economy remains sound despite the recent softening of the major economies. Unemployment continued to hit record low since 2003 and both primary and secondary residential property transactions performed well with record high levels in 2007.

The recently announced HKSAR Government's 2008-09 Budget proposing the reduction in standard rate of salaries tax and profit tax rates, the increase in major allowances, the waiver of rates for fiscal year of 2008-09 and the investment in the infrastructure developments including the new railway links of West Island Line, South Island Line and confirmation of the Shatin to Central Link as well as the upgrading programme for the Hong Kong International Airport will be positive to the Hong Kong economy and property market. Together with the negative real interest rates, low mortgage rates and declining interest rate environment, demand for residential properties is expected to remain resilient. Barring unforeseen circumstances, the Hong Kong property market is expected to continue to grow further due to good economic fundamentals. As the majority of the Group's assets are in Hong Kong, the Group is well positioned to benefit from the economic and property market environments.

China continued to register stable economic growth in 2007. Domestic consumption, wealth creation and the demand for good quality private housing within China remained strong. The 2008 Olympic Games to be held in Beijing will be a positive boost to market sentiments. Prospects of the China economy remain promising in the medium to long term.

The Group continues to be well prepared to take advantage of the exciting opportunities ahead. It will continue its policy of selectively and continuously replenishing its land bank both in Hong Kong and China to optimise earnings and improve the quality of its properties and services to enhance the lifestyle of its customers. The Group's land bank will enable it to strengthen earnings and profitability, and continue to deliver value to its shareholders. The Directors are indeed confident in the medium to long term prospects of the Group.

During the six months ended 31st December, 2007, the Company has complied with all code provisions of the Code on Corporate Governance Practices as set out in Appendix 14 to the Rules Governing the Listing of Securities on The Stock Exchange of Hong Kong Limited (the "Listing Rules"), except that there was no separation of the roles of the chairman and the chief executive officer, both of the roles are currently undertaken by the Chairman of the Board.

The Board is of the view that the current management structure has been effective in facilitating the Company's operation and business development and that necessary checks and balances consistent with sound corporate governance practices are in place. The implementation of strategies and policies of the Board and the operation of each business unit is overseen and monitored by designated responsible Executive Director. The Board found that the current arrangement had worked effectively in enabling it to discharge its responsibilities satisfactorily. In addition, the three Independent Non-executive Directors have contributed valuable independent views and proposals for the Board's deliberation and decisions. The Board will review the management structure regularly to ensure it continues to meet these objectives and is in line with the industry practices.
